

Designed for precision fiber optic stripping, this tool is perfect for stripping the 600 - 1100 micron buffer coating to expose the 250 micron acrylate-coated glass fiber of fiber optic cables. This precision fiber stripper also features the following:

- Precision blades strip the 600 - 1100 micron acrylate coating to expose the 250 micron acrylate-coated glass fiber of fiber optic cables
- Blades are precision ground and hardened for accurate stripping and long life
- 2" (50 mm) scale with 1 mm graduations and length stop to strip fiber to specific lengths
- Compact and lightweight design for maximum portability

SPECIFICATIONS	
STRIP DIAMETER	0.024" - 0.43" (0.6 - 1.1 mm)
STRIP LENGTH	0.039" - 2.0" (1.0 mm - 50.8 mm)
HOUSING MATERIAL	ABS
BLADE MATERIAL	Hardened Steel
PRODUCT MATERIAL	ABS
DIMENSIONS	3.88 in x 1.73 in x 0.51 in (9.86 cm x 4.39 cm x 1.3 cm)
WEIGHT	0.05 lb (22.7 g)
UPC #	810053351918
