

# Fan Out Kits

Indoor buffer tube fan-out kits are specifically designed for the termination of 6 and 12 fiber loose tube cables. These fan-out kits provide the ultimate solution for those users who wish to field-install connectors. The kits provide the most compact, easy-to-install fan-out solution which requires no additional hardware or space than that required for terminating tight-buffered cables. The fan-out kit features a 900 micron fan-out assembly that is color coded to match the fibers you are terminating. The fan-out assembly is available for 6 or 12 fiber units in a length of 1.2m.

## Features

- Coloured fan-out tubing
- Compact design
- Bend radius protection
- 900µm tails
- Internal/External application
- Cost effective
- Time saving on site
- Makes loose tube fiber easier to work with

## Applications

- Field termination of loose tube cables into indoor cross-connects

## Specifications

Tubing Specification	
I.D	0.5 +/- 0.05mm
O.D	0.9 +/- 0.05mm
Max Tensile Load	45N
Min Bend Radius	13mm
Crush Resistance	52N/cm Max
Temperature Range	-45°C to +85°C

## Ordering Information

PART NUMBER	DESCRIPTION
KFO6LT1	Fan Out Kit Loose Tube. 6 Fiber 1.2m
KFO12LT1	Fan Out Kit Loose Tube. 12 Fiber 1.2m
