

CAN YOU TELL WHEN YOUR COLLEAGUES ARE BUSY?

Busylight Combi will tell you

BUSYLIGHT COMBI™ TURNS RED

- when your colleague is on the phone.

BUSYLIGHT COMBI™ IS BLUE

- when your colleague doesn't want to be interrupted.

UP TO 10 EXTRA WORK DAYS A YEAR FOR EACH EMPLOYEE

Employees don't have to work harder, but simply eliminate useless walks in the office and avoid being interrupted in the middle of concentrated work.

Get 15 minutes of "extra time" each day by reducing irrelevant interruptions and wasted time.

BETTER WORK ENVIRONMENT

Too many employees complain about the work environment. Actually, two out of three employees feel that their colleagues disturb too much.

Busylight offers individual control and lets co-workers tell each other, whether they are available or not.

BETTER QUALITY

When you eliminate a lot of the daily interruptions, you will see an increase in the quality of work.

Depending on the tasks of the individual, you will experience:

- improved customer communication
- fewer errors on complex tasks
- simply better work
